

Mathematics

Adding two numbers with sum less than 10

 Grade
2

Essential Outcome

- Student will be able to perform simple addition of whole numbers with sum less than 10

Content Type

Illustrations & Audio

Lesson Content

Write Illustrations

1. Write the Activity on canvas (for example: $2 + 3 = 5$)
2. Ensure writing is clear and readable.
3. Use alternating colors when necessary.

Record Audio

1. Start with introduction of the activity.
2. Explain the activity using simple words.
3. Discuss your writings/illustrations on the canvas.
4. Ask student to try a similar example.
